### Big Walnut Ramblers Trailer Club Is One of Host Clubs

Over 1,200 trailer units of all sizes and descriptions could crowd the Hartford Fairgrounds to capacity this weekend when the Ohio chapter of the National Campers and Hikers Association holds their annual spring campout.

Jim Thatcher of Sunbury, state delegate for the Big Walnut Ramblers Trailer Club, told the News that over 700 trailer owners had registered as of last weekend and with good weather this number will swell to 1,200, bringing with them approximately 5,000 men, women and children.

The Big Walnut Club is one of the host clubs for this semi-annual campout; they have been making preparations for weeks. Thatcher is parking chairman with Bill Smith of Sunbury as his assistant. Their work started last weekend when campers started arriving to set up early. Smith and his wife, Mary, are Delaware county field directors for the National Association and they recently helped organize club number 1999 at Delaware.

The campout activities start in earnest Saturday with a wide array of activities planned for the campers. The various clubs from throughout the state will sell their special items to other campers with the profits going into a scholarship fund that last year gave four scholarships to members' college-bound children. Part of the registration fee of \$4.00 also goes into this fund. Horsehoe pitching contests, jarts, exhibits by trailer manufacturers, and a queen contest will fill the afternoon and the queen and her

## MEN OF CLOTH SHOULD EVALUATE THEIR WORK . . .

There is an adage which says something about locking the barn after the horse is stolen. We believe some of our ministers and would-be ministers might hearken to that adage.

Some of the churches passed out leaflets prepared by the Methodist Theological Seminary in Delaware at the various church services Sunday. These leaflets are asking public support for withdrawing our troops from Southeast Asia.

We believe the ministerial students and their professors have made a false statement when they wrote "the public faith in the guarantee of the right to legitimate questioning and dissent has been threatened and met with brutal repression, resulting in a further polarization in this country".

We believe the public has been given more than enough opportunities to express dissent and to question action. We believe too much dissent without constructive suggestions gains nothing but frustration. So far as we can see, many dissenters are saying withdraw troops now, but failed about ten years ago when it all started in Southeast Asia to take enough interest to even read what was happening and to speak out at that time. The horse is now out of the barn.

We also feel that ministers and would-be ministers have much more serious demands upon their time than trying to play politicians. Isn't it true, if ministers had really been instructing and teaching their public as their profession dictates all of these years, the world would, without a doubt, be much better today?

When man's heart has not been touched, when man's ego tells him he is always right and he is superior to all his fellow men, when man never hears about God, the Maker of history, because the ministers are too busy supposedly taking care of social, welfare, and even political problems, we would say the horse is out of the barn. Ministers have failed miserably in their commitments. Upon these grounds, we fail to see how they dare to tell our government how they should function. No man is God, not even the minister!

Community Chorus is fine in the community and we urge all those who have sung in it in the past and those who love music and like to sing to help reactivate this group. They have rendered fine service to the community in the past and we are happy to see a group revive the chorus for our July 4th celebration.

Welcome to the campers who will have their trailers at the Hartford Fairgrounds this weekend. This community is noted for its hospitality and we know you will enjoy your stay in the area and hope you will wish to return in the future.

Have you registered for your entry in the July 4th celebration? Time's getting short!

## Highlights from Surroundings Towns

**JOHNSTOWN**—Northridge Education Association voted Monday to impose full sanctions against the Northridge Local School District. Numerous reasons were given for this action including failure to meet certain state minimum education standards, minimum standards for library, lack of guidance program, failure to meet the state minimum salary and other things. To meet the financial crisis of the district, the Board of Education is considering cutbacks. Representatives of the teachers' association, NEA, plan to meet early next week with a representative of the Ohio Education Association to discuss the possibility of imposing state-wide sanctions against the district.

**FREDERICKTOWN**—For the second time, village council has rejected all bids for franchised garbage and rubbish collection in the village. Two bids were received Monday night; Mt. Vernon Garbage Co. had a base bid of \$2.50 per month at the curb and Gary's Sanitation had a base bid of \$2.40 at the curb. Mayor Robert Melick said that there are over 130 village residents who are retired on "fixed" incomes and that many of these are served by one or more of the several haulers in the area at nominal rates. Some haul trees and other items that will not go into packer trucks; under a franchise, these, as well as the nominal cost hauler, would be at least partially paid for. Several residents attended the meeting prepared to speak against the franchise had it been necessary. With two packer trucks and three or four other haulers serving the village, it

was pointed that the public is well served now and that a franchise would only have benefited the successful bidder.

**CARDINGTON**—Lloyd Williams was honored by the Cardington Volunteer Fire Department at dinner May 5 on his retirement as a fireman after 44 years with the department. He was presented with some luggage for his years of service.

**BELLVILLE**—Heavy wind and rain storms swept through the area shortly after noon Wednesday, knocked out power lines, felled trees and signs and left a wake of debris. Water gushed down Main Street in torrents higher than the curb and visibility was zero. Publisher David A. Richardson of the Bellville Star set part of his newspaper on a typewriter after the electricity was knocked out.

## PROUD OF FHA GIRLS IN STATE CONVENTION

May 18, 1970

Mr. Whitney  
Sunbury News:

I had the pleasure to attend the State FHA Convention in Vets Memorial in Columbus, Ohio. I was so proud of the girls and their achievements. We had rooms at the Nell House and observed some of the protesting that was held on the State House lawn. Then, that night, I sat in Vets Memorial watching the beautiful program that was put on and the 300 young girls in beautiful, pastel formal dresses, I thought, what a contrast! And I only wished that more people, including the protesters, could have seen the program of dedication and all the work that had gone into it to make it a success. What really bothered me was that the girls didn't get the big write-ups in the papers or on TV or radio like the protesters did. I don't understand why more publicity can't be for these good youth groups such as FHA, FFA and 4-H. I will add that the Sunbury News has done a great job in this respect and I wish more papers would take an interest in our youth and have a "Miss America" for many good articles from all our schools.

## Book Highlights Week

A highlight of the week, he added, will be the release of a new book, "Under All Is the Land," with text and more than 200 full-color photographs depicting the countryside, the thriving cities, the heritage, the pleasures and progress of the entire United States. The book, available only through realtors, is dedicated to the people of the United States by the Realtors of America.

"During this week," Realtor Disbennett says, "we should consider the full meaning of this sentence and the one that follows it in light of some of the problems facing us today."

"Our preamble to the Realtor's Code of Ethics begins, 'Under All Is the Land.' Upon its wise utilization and widely-allocated ownership depend the survival and growth of free institutions and of our civilization, Realtor Disbennett continued.

Home ownership is enjoyed by more than two-thirds of the families in this country. It is the foundation of our economic and social structure. The National Association of Real Estate Boards, one of the more than 1,500 local boards can identify himself by that term," Mr. Disbennett explained. "To be eligible for membership, a candidate must demonstrate a superior knowledge of the business, possess a record of business integrity, and finally, subscribe to a strict code of ethics."

"Realism," Mr. Disbennett concludes, "feel they have contributed greatly to the nation's prosperity. NAREB and its leaders have for years urged and promoted home ownership both by the business in which they are engaged and by support of legislation and custom that have made purchase possible for millions of families who could not previously afford it."

The National Association of Real Estate Boards, one of the country's largest trade and professional associations, was founded in 1908.

## Delaware County Board of Realtors Plans Release of Book During Realtor Week

"Under All Is the Land," five words that open the Realtor's Code of Ethics, has been selected as the theme for the 1970 observance of Realtor Week, May 17-23, announced Everett L. Disbennett, Jr., president of the Delaware County Board of Realtors.

"Our observance," Realtor Disbennett says, "is one of hundreds planned throughout the nation this week to call the attention of the public to Realtors and the high professional services they render."

"The term 'Realtor' is an indicator of special qualifications because only a member of the National Association of Real Estate Boards and one of the more than 1,500 local boards can identify himself by that term," Mr. Disbennett explained. ## Ohio Supreme Court Turns Down Lewis Appeal on Murder Conviction

Ohio Supreme Court turned down the appeal of Arthur Ben Lewis, 43, convicted of first degree murder by a Delaware County Common Pleas Court jury Mar. 21, 1968, and was sentenced to life imprisonment by Judge Carl Weller of Mt. Gilead who presided over the court for his trial.

Lewis was charged with the shotgun slaying of Paul Radcliffe, 53, Worthington accountant, in an abandoned factory building on Route 315 in this county. Radcliffe was auditing books of a Columbus firm which Lewis was trying to sell. Lewis has been in the Ohio Penitentiary since he was convicted.

The decision of the Ohio Supreme Court was received last Wednesday afternoon with all six judges voting against the appeal. This court has had the appeal since February and released its decision last Wednesday.

Lewis carried his appeal to the Ohio Supreme Court after the Fifth District Court of Appeals upheld his conviction by Common Pleas Court in their decision Feb. 3, 1969. Lewis contended in his appeal to the Supreme Court that action of investigators impounding his car and taking paint samples from it after his arrest were illegal. The paint samples were similar to those found on the Radcliffe car that had been pushed into a ravine near the murder scene. Attorney Paul Scott of Columbus, counsel for Lewis, listed several other reasons why the case was appealed and said that the court erred in refusing a new trial when he told that new evidence had been produced.

## School Days Fading

Students are counting the days before this school year ends next week. Next week will be a big time for seniors who are completing twelve years of public school education and will receive their diplomas. We are glad to have the opportunity to work with students in all of our schools, especially those in high school and we congratulate the seniors on completion of their public school education. We have always been a supporter of education and only wish that I could have obtained more of it but with this turmoil on the campus of most of our colleges and universities, I don't think that I would encourage my high school grad to enter college next fall. Where are we going in the education field? What do our high school grads have to look forward to?

## Who's Dumping Dogs Out?

We have had several calls the past week from residents all over the community reporting that dogs have been dumped out and left in their houses. Some of those calling tell me that the dogs are friendly pets but they cannot keep them and do not want to see them go to the county pound. Folks wonder what to do with the dogs. There is little chance of catching someone dropping a dog from a car and I have no answer to this problem.

## Pickups Around Here

Glad to see "Chuck" Nettelhorst buy the house on the corner of East Street and Letts Avenue in our end of town as he is completely rebuilding the interior and will have modern apartments in it. Glad to hear from John and Ruth Gallagher in Punta Gorda, Fla., telling us not to let the News miss them. They say that they were not had a shower of rain since May 15. Melton Rogers of Newark dropped in Monday while visiting his mother, Mrs. Jette Whitt; we went through Sunbury High together and graduated 46 years ago. "Mut," as we called him, told me that he did not know any more here any more and told him that I lived here but he could call only a few people by their name.

too busy studying to fight or riot," she says.

She feels that Nixon was wise to enter Cambodia and says that history will show that he was right. "The Communists will overrun the West if they are allowed," she adds.

The Roberts celebrated their 58th wedding anniversary May 10. They were married in 1912 and have lived in the area since 1922.

For 48 years, they have lived "part of the time north of the Delaware county line and part of the time south of it."

She was born in Blacklick and raised in Columbus. She was employed at Kilgore's in Westerville to make signal flares for the Navy. After 20 years, she retired in 1959.

Still recuperating from a stroke she had the night before Thanksgiving, she says, "I hope to be my old self within a year and I still have six months left."

The object of an hour-long search by this reporter, Mrs. Roberts laughed heartily when she heard of the long, tortuous route taken to reach her home on Tussic Road. After explaining an easier way back to Sunbury, she settled down for the interview.

"I'm not much of a club woman; I'm more of a homebody," she says.

When the article came out Apr. 30 on Frances Fravel, Harlan News writer, Mrs. Roberts asked her, "Frances, how do you get anything done?"

Mrs. Roberts, however, does find time to belong to the Central College Presbyterian Church, Mary's Circle, and the Golden Rule Circle of the King's Daughters.

"I expect I've been writing for the News for eight years," she recalls. She took over the Tussic Way news after Mrs. Elva McLeod died.

"Most of the people I talk to are nice. I enjoy writing and I've had no trouble getting information."

Asked what she liked most, she replied, "Sewing and cooking are my longest. I also like good music, good concerts, and good, clean plays."

Both she and her husband are avid history readers and own the complete set of "American Heritage" books.

She feels strongly about the recent campus rioting and Nixon's policies. "They (the students) ought to have a voice but they ought to know how to use it with respect. No decision ever made pleased everybody," she believes.

All of her five daughters went to Ohio State University. "They were

## Moon, Signs Used in Planting . . .

By Mrs. Gladys M. Buckley

During the past week, the weather has been against us in planting. It is otherwise a very good time as the moon and signs are working together.

The moon is in the 3rd quarter now; at this time, plant the following: beets, carrots, chicory, onions, parsnips, potatoes, radishes, rutabaga, turnips and tubers for seed.

Seed planted now will produce more stalk than grain.

The sign will change from Sagittarius to Capricorn, or the goat. It is an earthy, feminine, movable and somewhat productive sign which rules the knees.

It is similar to Taurus but drier. Bulbous flowers, potatoes, tubers,

and root crops may be planted now. It is also a good time for sterilization.

On May 25, Capricorn changes to Aquarius, the water carrier. This sign is airy, moist, masculine and fixed. It is inclined to be barren and rules the calf of the leg and the ankles—good only for cultivating and exterminating pests. Pisces, or fish, is next to take the lead. The sign goes into effect at 6:59 a.m., May 25. It is watery, feminine, flexible, fruitful and rules the feet.

This sign is similar to Cancer and is best used for the same purposes. The moon changes to the 4th quarter on May 27 at 5:32 p.m.

On May 29, 10:27 a.m., the sign changes from Pisces to Aries, the ram. It is fiery, masculine and movable.

Tending to dryness and barrenness, it rules the head and face. It is fairly good for cultivating, spraying and destroying weeds. Plant onions if the moon is in the 3rd or 4th quarter.

Pick apples, pears, etc., in the moon's 3rd and 4th quarters and the bruised spots will dry. If picked in the 1st and 2nd quarters, the spots tend to rot quickly.

Each month, the time of the signs change but the results or their qualities do not change. The common almanacs and calendars do not give the time of change.

## Up-to-Date Notes on Mt. Pleasant Folks

By Mrs. Betty Metzger

Mrs. Janet Saunders, Mrs. Rita Thorpe and Mrs. Viva Jones called at the Don Wolfe home last week. Our visitors were our family, Janet Grosso, Jim Thorpe and Tim. Saturday forenoon Clinton and I called on Mr. and Mrs. Ronald Owen in Centerburg; Monday afternoon, I called on my cousin, Margaret Smith, near Fulton. She and I drove around to see the tornado damage done near Mt. Gilead. Hoyt Whitney was a Wednesday caller. Charles Metzger and Darrell of Sunbury and Joe Metzger called on

Mrs. May Weaver this past week. Mrs. Weaver will celebrate her birthday Saturday and we hope she has many more happy birthdays. Friday evening Mrs. Helen Hunter was a hostess for a "Dutch Maid" party at her home.

There were eight members present at the Mt. Pleasant Ladies Aid meeting held at the home of Mrs. May Weaver Friday afternoon. Plans are being made for the members to eat out for the June meeting. Sunday dinner guests of Mr. and

Mrs. Grover Bird were Mr. and Mrs. Archie Williams and Karen of Columbus. Recent callers at the Bird home have been Mr. and Mrs. Gary Young of Westerville, Mrs. Florence Mason of Mt. Gilead and Mr. and Mrs. Ernest Bill and family of Marengo and Jack Barcus. Mrs. Bird called on Mr. and Mrs. Marshall Pittman last week. Marshall isn't too well since his accident.

Our community certainly felt badly about Lon and Christine McNett losing their barn in a fire early

Friday afternoon.

Mrs. Al Wood and Mike of Marengo, Lawrence Stockwell, Rev. Reid Stockwell, Roger Argabrite, Mr. and Mrs. Roger McLaughlin, Sandy Metzger, Earl Rowand, Dianne Argabrite and Chris, Rita Thorpe and Tim, and Judy McGovern and daughters were last week callers at the Anthony Grosso home.

## Salerno . . .

The Glory That Was Salerno is about 30 miles south of Naples. It is mostly remembered as the battlefield that made headlines in the Second World War. As historic interest wanes, Salerno shall probably be forgotten. . . But in the Middle Ages, it was the center of the Medical world! It was the site of the FIRST university. Aspiring doctors from all over the world flocked there. No one could practice without authorization from the school.

Today, nothing remains of its former glory. One can still see the ruins of the famed school, now occupied by poor peasants—and their goats, which wander about from one doorway to another. This is another matter, but we just wanted to remind you that whenever you're in need of medical supplies of any type, you can rely on DEL. RUS PHARMACY, Cor. Sandusky & William Sts., Delaware, to serve your needs with dependable care. Free Rx Delivery? PHONE: 363-5861.

## 10% Better gains and efficiency?

Surprising, what a hog feed can do when it sticks together!

That's what making pellets does to feed - sticks it together. Research tests show that when you do this hogs will do 10% better than on the same feed in meal form. They'll do it on less feed, too. Pellets mean less waste, more uniform growth, easier handling, less dust, better digestibility—in short, more profits for you.

That's why LANDMARK has five pelleted Litter-Cycle swine feeds: Pig Primer, Pig Aid, Pig Maker, Pig Developer and Pork Maker. They fill the need from early weaning thru marketing. Ask one of our feed servicemen for details on pellets, he's here to help you.

## Proper Storage, Disposal Of Pesticides Is Necessary

By Robert Irvin, County Agr Agent

There is nothing magic or complicated about the safe storage of pesticides, according to Dr. Edward Stroub, agronomist at the Ohio State University and Ohio Agricultural Research and Development Center. Stroub says it does require some time and effort and possibly there may be some cost involved in the construction of a facility for storage, depending on the amount of pesticides to be stored. It is well worth this total effort when you consider the number of children and others who have died simply because pesticides have not been stored properly.

Improper storage is a major cause of accidental deaths from pesticides, says the extension specialist.

The following are some rules, according to Stroub, for storing pesticides in the home or on the farmstead. The violation of any of these rules may very well negate the others.

—Purchase the minimum amount of pesticides needed for one season.

—Store pesticides in the original container. Never store, transport, or leave in a food or drink container.

—See that labels remain on stored containers. Discard unidentified materials. It is good practice to date containers as they are stored.

—Store in a dry, well-ventilated room or building away from food, feed, or fertilizer. Within the storage area, separate the classes of pesticides, i.e., herbicides from insecticides as cross contamination may occur.

—Store glass containers so that they are not subject to breakage. Liquid pesticides should be in a heated area to prevent freezing.

—Be sure all packages and containers are well sealed and are not leaking. Discard leaking or broken containers and outdated materials.

—Remove from storage only the amount of material for your immediate needs.

—Last and most important: make sure the storage area is secure and locked "at all times". It should be made secure from children, irresponsible persons, pets, and livestock. "Never" store pesticides in the medicine cabinet or under a sink!!!

When pesticides or seed treated with a pesticide become outdated or no longer desired by a dealer or consumer, they must be disposed of in a safe manner. The same is true of excess spray solution prepared by an applicator. The following are some rules governing the disposal of such pesticides suggested by Dr. Stroub.

—Give unwanted pesticide or treated seed of good quality to a responsible person in need of the material, if possible. (Be sure he knows how to use the item properly - Robert Irvin)

—Disposal of surplus or waste

## CONSERVATION CORNER

## Recommends Use Grass Waterways

By Gerald E. Solt, soil service

Grass waterways are the first line defense against gullies in farmland. During heavy rains, more water falls than can be held by the soil. This water runs off through some kind of waterways.

Most farmers eventually reach the conclusion that it has to be either grass or a gully in those places where water collects and runs off their fields.

We have recently seen some grass waterways that are gullying along the edge of the grass. This is caused by leaving a strip of grass too narrow to carry the volume of water coming down the drainage way.

Natural drainageways make the best locations for grass waterways and often require a minimum of shaping to produce a good channel. They should have the capacity to carry run-off safely from the watershed above and be flat enough for farm machinery to cross.

Kentucky 31 fescue is the most common grass in use for waterways. It is seeded at the rate of 30 pounds per acre. It provides a dense sod that can stand the wear from water and farm equipment.

The most common causes of waterway failure are abuses and neglect. Careless crossing with farm equipment can tear out spots of grass.

## Olentangy Wins Eighth, Takes Big Walnut 6-2

Olentangy won their eighth game of the season Friday afternoon as they rode the strong arm of Tony Davenport and the big bat of Randy Lazar to a 6-2 decision over Big Walnut on the Braves' diamond.

The win was the eighth against seven losses for Olentangy overall and their fifth against four losses in MO competition.

Big Walnut opened the scoring in the second inning when Norm Hall walked. Dave Hammond was safe on an error and Larry DeMint doubled to score Hall. In the top of the third, Jerry Drosdy tripled and, with two outs, Hammond singled to drive him home.

The Braves came back in the bottom of the inning as Mark Knoff hit a 2-run single to drive in Dan Triplett and Jerry Cutler and in the fourth Lazar singled to drive in Dan Hoover.

The big blow of the game came in the sixth when Lazar homered with

Davenport and Steve Ufferman on base to give the Braves a 6-2 lead and the game. Davenport had singled leading off.

Lazar finished the game 2 for 3 to win batting honors and the Braves as a team stole 6 bases. Davenport gave up only 3 hits, struck out 6 and walked 3 while Larry DeMint gave up 4 hits, struck out 1 and walked 6. DeMint fell to 2-3 on the season and Davenport is 6-2.

The Braves were scheduled in a doubleheader with Highland yesterday, play at Mt. Gilead Monday and Tuesday wind up their season at Hamilton Township.

A game at Mifflin today was to be changed because of the sports banquet this evening, reported Coach Bill Chappellear.

## Cardington Clips Barons 6-3 With Five Unearned Runs

Buckeye Valley's Mid-Ohio title hopes were dealt a serious jolt Tuesday afternoon at Cardington as the Barons dropped a 6-3 MO contest to the Pirates as all but one run in the game was unearned.

Rob Dodge scored the first run of the game in the first inning as he scored on an overthrow of third base but the Pirates came back in the second to tie the count to 1-1. In the third, Petry singled and the next two base runners were safe on errors at short. An infield single allowed one run to score and catcher John then smacked a double to empty the bases, giving the Pirates a 5-1 lead.

Cardington scored one more run in the fourth and the Barons hit for two in the fifth as Paul Nicodemus and Jim Bryant both scored again on overthrows of third. Nicodemus and John Phillips both ended the game 2 for 3 to lead BV and Petry was 3 for 4, including his double. Keith Thompson went all the way for BV, giving up five hits while striking out 8 and walking 5. Herron gave up 6 hits, struck out 10 and walked 1.

The loss was the third for the

Barons in MO competition and they entertain Mt. Gilead today. They still have games with Highland and North Union remaining which haven't been scheduled as yet. Mt. Gilead has four games remaining with Olenant, Cardington, BV and North Union.

Joe Tobin of Marion Catholic placed 2nd in the 100-yd. dash, finishing ahead of Hank Snowden of Academy. Greg Ward of Fredericktown placed 4th in the 180 yd dash and was also third in the 100-yd. dash, finishing ahead of Hank Snowden of Academy.

## Big Walnut School Board Plans June Census

All residents of Big Walnut School District between the ages of 0-18 will be counted in June, according to plans made for the census during the School Board's May 18 meeting.

The census is being done in connection with the survey to be undertaken by Dr. J. J. Conrad, head of Educational Administration and Facilities Unit which is doing a study of Big Walnut School plant needs.

Big Walnut FFA and FFA will assist the administration in collecting information. The Board approved a contract with the young people with the fee going to the two organizations.

Families will be mailed cards from the district office June 4 or 5 and will be asked to list all children in the home. Cards will be picked up by FFA and FFA members June 11-12.

Information from the cards will be plotted in the district office under the direction of Estel Miller, high school principal. The census is one step in the study. Other information to be digested by Dr. Conrad's group includes facts about the community, information about the educational program, details concerning pupil population, information about the school plant, and financial resources of the district.

In other action the Board: 1) Continued preliminary discussion of possible expansion of the Middle School to house the eighth grade. Supt. Sanders commented that Big Walnut High School "will be full next year". Eighth graders are presently in the high school building.

2) Called for Resolutions of Congratulations for Big Walnut FFA (ranked first in state), Laura Sechrist (sixth in Ohio in the Citizen Junior Spelling Contest), Kathy Wertheimer (elected state vice president of FFA), and FFA (state star chapter).

3) Approved tentative list of graduating seniors who have met requirements of both the local and state boards of education for graduation.

4) Heard Supt. Sanders' list of maintenance to be undertaken in Sunbury, Galena, and Harlem Elementary buildings during the summer.

5) Asked for opinions from principals before deciding whether to issue comprehensive or tase plus supplemental contracts.

6) Heard comments from a parent questioning the Board's decision earlier in the month to drop Latin instruction at the high school. The Board took the question under advisement.

The chase started when Deputy Longshore was cruising in Sunbury and saw two men in a car and when he stopped to investigate, they took off. The two covered most roads in this area, through Kibbourn to Morrow county with the deputy in pursuit. He radioed for help as he was coming south on Rt. 61 and Deputy Robert Terry joined and Westerville Police set up a road block at the county line on Sunbury Road where the car was stopped.

## Band Gives Fine Performance

By RITA UNZAK  
Staff Writer

Snappy, balanced, and well-disciplined were the words which took shape in the mind of this writer after listening to the Big Walnut Concert Band perform May 15 when approximately 200 attended.

James L. Swearingen, band director, kept toes tapping with selections by Henri Mancini, such as "Moon River" and "Baby Elephant Walk".

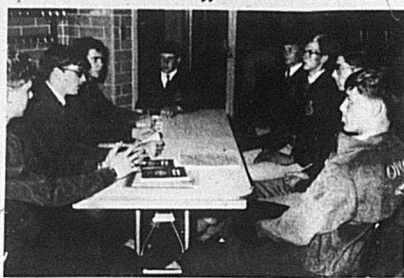

A particularly moving selection for me was "America the Beautiful". This lovely melody must have stirred many patriotic emotions since it was written and did not fail to do so that night. Accompanying the band on this number, which served as the finale, was about one-fourth of the Big

Walnut Choir.

"Fantasy on American Sailing Songs" and "Etude Romantique," the latter by Frederick Chopin, were greatly pleasing and well done. Hylen Souder, superintendent of Big Walnut Schools, presented the Outstanding Senior Bandmen Award to Connie Comstock who plays tenor sax.

The award, new this year, is presented to a band member of four years' standing who is chosen by the band members themselves on the basis of leadership, scholarship, attendance, attitude, cooperation, musicianship, and character. Before presenting the award, Souder recalled the recent troubles that colleges across the country are experiencing. "I do not expect that kind of trouble here as we have fine homes, fine students and fine parents," said Souder.

## FFA Conducts Officers Training

**CONDUCTING PROGRAM**—Big Walnut students, Dan Brenner and John Rowland, second and third from left, discuss leadership with boys from other schools.

Big Walnut FFA Executive staffers met with Licking county officers to exchange ideas and present a leadership program at Summit Station in Licking county May 14. Dan Brenner, BW FFA president, gave a presentation on the ten com-

mandments of a good leader to the three chapters represented—Johnstown, Licking Valley and Licking Heights. John Curtis, Bill Arthur, Greg Garce, and Steve Lord, all BW officers, gave a skit on the use and misuse of these commandments.

## TWO COUNTY ARTISTS TO EXHIBIT WORKS IN INTERNATIONAL SHOW

The art creations of two members of the Delaware County Red Cross Youth were among the chosen paintings in the District International Art Show held at Eastman High School in Columbus Apr. 26.

The selected works were a silk screening, "The Elements," by Janie Chorprenning and two ink sketches, "The Clown" and "The Deserted House," by Chuck Higgs. Janie is a junior at Oleantay High School, Delaware county, and the daughter of Dr. and Mrs. Frank Chorprenning. Chuck is a senior at Big Walnut High School, Sunbury, and the son of Mrs. Mary Hoppes.

These paintings will now be entered in The International School Art Contest at Silver Springs, Md., June 23. If they are selected from the entries by Red Cross Youth in Virginia, Maryland, West Virginia, and Ohio, they will become part of a traveling art exhibition in Europe, Africa and Asia. The exhibition will be one segment of the International Art Show of the International School Art Program in 1970.

In 1971, a School Arts Program will be held within the United States. The National Art Education Association and The American National Red Cross will conduct an International School Arts Program, attempting to combine art education and social service experiences involving people of a variety of cultures.

## YOUTH CENTER GROUP TO HOLD JUNE DANCE

Big Walnut Youth Center will sponsor a dance June 12 from 8-12 p.m. at the Sunbury fire house. It was decided at the group's second meeting.

## You Can't Go To The Senior Prom!

(... without using the telephone at least 14 times)

It's not easy to get to the senior prom. Without a telephone it's impossible!

First he calls to ask her to go with him. She says she'll have to let him know. Then, she calls 7 girl friends to tell them she's been asked.

After several hours of enjoying this exquisite sense of power over a man, she calls him back to say, "Yes".

Properly excited, he calls a buddy (who has a car) and asks to "double" with him. The buddy says, "O.K." ... if he will drive on the way home and pay for half of the gas.

Shortly after, she calls him to find out what time he's picking her up.

A few days later he calls her mother to find out the color of her dress so that the corsage won't clash. (And has to ask his mother what color "mauve" is.)

Of course he calls on the night of the prom to report that he will be late picking her up.

And she calls after the dance to tell her parents they will be late coming home.

The United Telephone Company of Ohio is proud and happy to be able to help young people get to the prom.

**FIRE DESTROYS BARN**—Grover Bird of the Porter Township Fire Department is shown in the above News photo setting down all that was left of the Donald McNett barn that was destroyed by fire Friday noon. This picture was taken by Jack Brehm of the News staff about an hour after the fire was discovered.

Fire destroyed a large barn on the Donald McNett farm in Porter township northeast of Sunbury Friday noon and work of Porter Township Firemen saved a granary, garage, corn crib and other nearby buildings.

"Pat" Patterson of Sunbury was delivering milk and was talking with Mrs. McNett when the fire broke out shortly before noon. "We heard a roar and I looked out and saw smoke coming from the barn. I told Mrs. McNett that the barn was on fire. She ran in to call the fire department and I yelled to 'Whitey' Glandon, my route supervisor, who was in my truck and we went into the barn to see what we could get out," Patterson told the News.

Patterson found some buck sheep in the barn and drove them out. "When hurrying the sheep out some sparks fell down on me and I didn't lose any time getting them out," he told. The two men were able to get out a few small things before the fire got too hot. The building was completely enveloped in flames when firemen arrived and they told that it was really hot. It is thought that the fire started from electrical wiring.
