## Local Youth Win Top Science Honors

Big Walnut schools hosted the Delaware county Science Fair, held Tuesday, Mar. 6, in the high school gymnasium. Two Big Walnut students took first place honors: Janice Rhodes in the senior division, and Kenny Sheets in the junior division. Todd Stockwell, Big Walnut High School, placed second in the Senior Division.

Janice Rhodes, 1st place senior division, won for her project, "Flame Retardant Materials," which included a recipe using household chemicals for fire-retarding material. She received a first place plaque and ribbon, plus \$65 cash prize from Nestles. Rhodes is the daughter of Glenda and Hilda Rhodes, 152 Greenbrier Rd., Sunbury.

## Grant Says Local Bus Driver Is Fair

Eugene Perry, Hawthorne Court W. Sunbury, was in fair condition Wednesday morning at Grant Hospital following the pile-up on 171 North during last week's snowstorm.

Perry was flown to the Columbus hospital following the chain-rear collision Thursday on the Interstate near Mt. Gilead. The bus was coming to Columbus, with Perry driving.

Winners of Delaware County Science Fair

Big Walnut students won the top honors in the Delaware county Science Fair held at Big Walnut last Tuesday evening. Junior Janice Rhodes, back row right, won first place in the senior division, while Kenny Sheets, 8th grade, front row, won first in the junior division. Todd Stockwell, also a BW junior, in the senior division (grades 9-12) did back, took second in the

senior category. Other county winners include, left to right, front, Brian Isler and Greg Kociba, Olentangy Middle School, and back left, David Blackstone, Olentangy sophomore. Kociba was second and Isler, third, in the junior division, while Blackstone won third in the senior division, and won the computer.

Big Walnut Board of Education approved the construction of a new athletic facility, but stopped short of promising to help fund it: at Monday night's meeting.

Board members gave the Big Walnut Athletic Boosters permission to build a building to be used for athletic functions on the south side of the football field, where the ticket booth is now located.

The building that is being planned will be 40x27 ft., and will include two ticket booths, a concession area, restroom facilities and some storage area.

Design for the building allows for eventual expansion to accommodate visiting team locker room area and wrestling areas.

Tim Schoonover, representing the boosters, said the building will be constructed of block, with, perhaps, the portion of the structure toward the high school faced with brick. He said the boosters feel the building can be built for around \$21,000.

Schoonover asked the board to grant permission for the club to begin the project, and asked if the board would be able to grant or advance the boosters \$10,000. He said if the board doesn't give or advance the money, the boosters will need to go to an outside source. He explained the group has about \$12,000 on hand now.

Dr. Miller explained that the board wants to end the year with at least \$150,000 carryover, to meet the first payroll of 1985.

The superintendent said he has imposed a spending freeze on all capital purchases and that the district will be suffering from a severe cash flow problem at the end of June and into July. He explained the crunch will be caused by the real estate tax books being closed at that time, so no advances will be available from the county auditor.

Table OAPSE Contract The board also tabled the ratification of the OAPSE contract until the Mar. 26 special meeting.

Members approved the resignation of Barbara Edmonson, LD tutor, and gave BW Elementary principal Richard Rosato a three-year contract, which will end July, 1987. Bill Adams was hired for 7th-8th grade boys track, and Joyce Barker was hired for 7th-8th grade girls track.

Board members approved a vehicle insurance policy with Republic-Franklin with a one year premium of \$11,170. Dr.

Miller said that George Keller is the local agent.

The board approved graduation events. This year's ceremony will be held June 3 at Gray Chapel in Delaware.

Dr. Miller told the board "I am in no hurry to make up snow days." He also said "I will not touch spring vacation at this point." Dr. Miller said too many people have plans to change spring break. He said the district has one day to make up at this point, which they could do Easter Monday, if necessary.

Dr. Miller asked the board for ideas on policies regulating the use of snowmobiles on school property, and the Sunday use of buildings. Another possible new policy would deal with fund-raising activities.

Karen DeBolt asked if the board would be willing to deed over six feet of the alley between the BW 6 school and Galena United Methodist Church to Galena village. She said the church is also interested in deeding over an equal amount to the village will maintain the alley. No decision was made at this meeting.

## Hikers Explore Bike Path Route

Bike Path Walk exploring the terrain of a potential bike path in the abandoned Conrail railroad bed was held Saturday afternoon.

The walk was led by councilman Cliff Cook and Dennis Bell. They were accompanied by around 10 to 12 hikers. Cook reports.

The meeting following the walk was also attended by around 12 participants, in addition to village solicitor Pete Manos, engineer Ed Snodgrass, and bridge specialist, Don Innes. Innes is an engineer working with Stults and Associates on this bike path project.

Snodgrass began the meeting with a description of the project and explained the funds to develop the project will come from the federal government, funneled through the Ohio Department of Transportation. He explained the right of way would be acquired this year, while construction on the project would begin in 1987.

Snodgrass said council would be receiving a complete report on the project and would then decide between 30 to 60 days to decide if they want to pursue the project. The cost estimate Snodgrass gave the council was of \$3000 per year average maintenance on the path alone, have been reduced to \$1000 per mile every 4 years. Snodgrass said. He said the estimates are based on the figures reported by those maintaining a 32 mile long bike path in Wisconsin. This same bike path is mowed three times per year, with

an estimated time of two men working two weeks.

Innes reported on the condition of the bridges at this meeting and said that he believes the structures are wrought iron. He said they are over 50 years old and "could last years and years and years." He said some of the structures look bad, and could be painted for aesthetic reasons.

Innes said the abutments show some cracking and scaling, but could be repaired by a cosmetic surface patching job. He said the patch would last about 15 years, but could last as long as 30, with the proper maintenance from the village.

Innes noted the project may have a problem with loading. He explained that the load limits are fine on a narrow footpath, but as

## Library Asks for Rezoning for New Building

Community Library asked the Sunbury Village Council to rezone a lot west of the village square to allow for the construction of a new library building.

The lot is located behind the Lawson store, on Evening St. The lot also abuts the Hopkins House, which is also owned by the library.

Council member Dennis Bell told the council the library's request was first submitted last July, with a hearing held in August. Bell said a portion of the adjacent land owners objected to the rezoning at that time.

Bell explained that the library board worked with the residents in the area and ironed out the potential problems. He said the council now must decide if the rezoning will be approved. He also noted the adjacent land is already zoned commercial, and the rezoning from residential to commercial will bring the land into conformity with the rest of the property in that area.

Ray Wrick, representing the library board, told council that his group has sent letters of intent to all the adjoining land owners to assure them of library's interest in resolving any differences. Wrick said the letter assures the neighbors that the library intends to use the land to build a new building; will avoid an entrance on Evening St.; that the area will be landscaped; that the library will conform to zoning laws; and that adequate drainage will be established.

Mr. and Mrs. George King, Cherry St., told council that they "are not against the library in any way" but are concerned that proper drainage be established. The Kings explained that the construction of the Lawson building has caused their garden to become flooded during summer rains and they want to be sure

that the construction of another building in the area won't cause more difficulty.

Wrick said the library's intent is to provide adequate drainage. Council president Adrian Abolins, who was presiding in Mayor Bob Reed's absence, said the council is intending to rework the village's storm sewer that serves that part of town. He suggested the library consider a plan to drain into the new system.

Council member Donna Baranek asked if the library had any opposition to the plan. She said that the Master Plan that council approved last year calls for that area to be used as a park. Wrick said he has heard no such opposition.

Council approved a motion to allow the village solicitor to write an ordinance for the rezoning. The motion passed unanimously.

Councilman Cliff Cook, reporting for the property and projects committee, said that at present several projects are being planned by that committee, including work on the reservoir area, and a project to rejuvenate the grass on the village square.

Councilman Bob Nichols reported the village could have an entire lawn care program for the square at a cost of \$1850 with an additional \$300 for aeration. Nichols said Chemlawn would do the work.

Council agreed, although no formal vote was taken, that this

year use of the square would be limited to three flea markets. This would exclude the annual International Fair, and Arts and Crafts Show sponsored by the Community Library in May and June, respectively.

Council noted, the grass is usually in bad shape following the three flea markets and hopes by limiting the use of the square to just these events and following a fertilization program, they can halt the damage to the square.

Baranek noted that the worse damage seems to come following the July 4 and Labor Day flea markets, since the rainfall is usually less during those portions

## Elections Has Special Hours For Registration

Voter registration period for the May Primary is now in full swing and the Board of Elections announces special hours for it.

Director Virginia Sheets says her office will be open Friday evenings, Mar. 23, 30 and Apr. 6 until 9 p.m., and Saturdays, 9 a.m. until 1 p.m., Mar. 24, 31 and Apr. 7. These special hours are in addition to the elections office's regular daily hours of 8:30 a.m. until 4:30 p.m.

Elections office will also remain open until 9 p.m. Monday, Apr. 9, at which time the registration period closes.

Virginia adds that the Community Library in Sunbury is also registering voters for the May Primary. Library's hours are 10:45 Monday-through Thursday, and 10:45 Friday and Saturday.

Concept Drawing Shows How New Library Might Be on Lot

Above is a concept sketch of the proposed library building. The area is currently zoned residential, a commercial zoning is necessary for the library.

Library Board member Ray Wrick told the council that this plan is very preliminary, but this is the type of complex the library would like to construct.

The dark area of the map indicates the location of the new building, which would be located to the west of the Lawson building, and north of the Sunbury Plumbing and Heating building.

The site lies in with the location of the Hopkins House that the library owns and hopes to restore, to be used as a museum.

## Blackhawk Sues To Stop Bike Path

Owner of Blackhawk Golf Course brought suit Monday against Conrail seeking to stop the sale of the railroad right-of-way to Sunbury for use as a bike path.

Groezinger Golf Enterprises, Inc., 8830 Dustin Rd., Galena, filed suit in Delaware county Common Pleas Court against Consolidated Rail Corp., Cincinnati. Suit, among other things, asks that Conrail be enjoined from selling or transferring the right-of-way during the pendency of the action.

Suit claims the railroad right-of-way cuts through the golf course, leaving four holes separate from the other. It says the proposed bike path would "completely cut off the playing area of a substantial portion of its golf course, rendering the entire course useless."

Suit claims the allowing of Conrail to sell the right-of-way to Sunbury for a bike path would set up a public nuisance "subjecting the bicyclists and the individuals on the golf course to dangerous conditions and risks of injury."

Suit says Blackhawk's owners have had an easement from the railroad for a crossing to link the four holes on one side of the tracks with the other. It points out that with the railroad there has always been a "definite and well-defined route" for the right-of-way through the golf course lands.

right-of-way for the railroad, only. It asks the court to find Conrail has breached the conditions of the original agreement in abandoning the railroad, and asks that the court order Conrail to deliver possession of the strip to the golf course, instead.

## Passerby Alerts 605 Family to Fire

Unknown passerby alerted a S.R. 605 family to an early morning fire in their home Friday, enabling the Firemen to escape without injury.

BSTAG Fire Chief Bill Fling reports the passerby then apparently went to a neighbor's home after awakening Hensen, his wife, Janet, and their children to call the fire dept. shortly before 1 a.m.

Fling said the blaze completely gutted the inside of the Hensen home, at 27 S.R. 605 S. He said BSTAG called in Harlem, Genoa and Centerville depts. for mutual aid, and firemen battled until about daybreak. The sub-zero weather against the blaze.

Fling reports firemen feel the blaze started from an electric space heater, in the room in

## WHY IS 'THE GRASS GREENER'...

Okay, Council, let's see if we've got this straight...

You are concerned because the grass on the village square looked terrible last year. (So did ours, but we assumed it was because we didn't have enough rain.)

So the solution is to begin a fertilization program (sounds reasonable).

And we should limit the use of the square to three flea markets which will ax the only other two events routinely held on the square in the summer, the International Fair and the Arts and Crafts show.

Now, this is where things start to fall apart in our understanding of the situation. Please explain how those two events, which are maybe attended by several hundred people, hurt the square as much as three events attended by several thousand.

Add to this a statement from council that grass after the May 30 flea market comes back just fine, but the July 4 and Labor Day events really injure the lawn.

Since the International Fair is in May, and the Arts and Crafts Show is in June, we can't figure out why the lesser damage possibly caused by those events wouldn't heal just as rapidly as the May flea market.

Perhaps we are looking for motives where none exist, but could this question be discussed again? At least you could give us an excuse we can believe. tdw

which the family was sleeping. He adds the Red Cross is helping the Hensens, who rented the house, get back on their feet.

Meanwhile, Genoa firemen are still not certain what caused a lake last Wednesday morning in Lake of the Woods South. That fire gutted the home of Dr. Jo Craven, 9067 Oakwood Pt., a member of the Children's Hospital staff. Big Walnut bus driver Cinda McClary called in the alarm about 8:15 a.m. as she saw flames and smoke coming from the roof. Genoa called in BETA, Westerville and Harlem depts. for mutual aid, and firefighters remained on the scene until about 4 p.m.

## BIKE PATH

(Continued from Page 1)

a project widens, "then the loading is greater than on an interstate highway." He said he is hoping the state will reduce the load. He said if a 5-ton load would be approved, it would allow for an emergency squad to get on it, if necessary.

In addition to the bridge structures, Innes explained the types of fences that would be used on the bridges. He said the fences would "go up on the sides and curve, but would not go over the top of the path."

Snodgrass said the path project would have to be approved by first the Sunbury Village Council, then Mid Ohio Regional Planning, since a portion of the project runs through Genoa Township, the Ohio Department of Transportation, and finally by the federal funds.

The meeting was opened for questions from the audience. Karen Owen asked if people would be permitted to "ride all night." Cook explained the ordinance would require legislation to close it at dusk. She asked if that would keep people off, and Cook said citations would be given to offenders. Solicitor Pete Manos said the village will be unable to prevent people from using the path, but will be able to file legislation regulating the use of it.

Snodgrass noted the project will not fund the development of recreational areas, but Baranek noted there is nothing to prevent the village from setting up picnic tables along the side of the path.

Helen Cline, a member of the audience, asked who has the right-of-way at bike path road intersections. She also asked how the path would be maintained. Snodgrass said the cars would have the right of way at the intersections, and said the path would be maintained out of the village's general fund.

Cook commented on the beauty of the area, the path cuts through and mentioned the wild life the bikers on the way. He also questioned the need for a fence around the project.

Dave Garver, who is working on the funding aspect of the project for the village, said the project would not be fenced from one end to another, but would be fenced around the golf course, and bridge areas.

A complete report will be given to council within the next several weeks, Snodgrass said.

 Bill Kingrey, an area trash collector, approached council to ask its help. He said that the Delaware county commissioners are pressuring the Knox county commissioners to keep trash from Delaware county out of Knox county. This would prevent Kingrey from using the less expensive landfill there.

Kingrey said the landfill he is using is privately owned, but the owner is planning to expand his site, and feels if he goes against the Knox county commissioners they might block his expansion.

Baranek reminded Kingrey that council had received a letter from the landfill's owner stating that Kingrey could use the landfill for as long as he wanted. She asked Kingrey for a letter explaining the situation.

Beitl told council that the village is being sued as the variance for the residential property is being challenged. He said no date has been set for the hearing.

## Galena UMC Joins Lenten Prayer Ministry

Galena United Methodists are participating in a Lenten Prayer-Visitaton Ministry called "Let Loose the Power" along with 475 other United Methodist churches of the East Ohio Conference.

Jack Oberlin, 4380 Sunbury Rd., is chairman of the Ministry. Activating Renewal through Evangelism (CAE), who listed on cards all members and associates of the church, neighbors, and community leaders. All will be included in 40 days of prayer, reports Rev. Donna Lou Van Buren.

At the Ash Wednesday Service last week the Assignment Cards were lifted up in a special service of prayer. The first Sunday in Lent, each participant took a packet of five cards from the altar along with the daily guide book "Forty Days of Prayer for Five Persons," and offered prayer, says Rev. Van Buren.

Each day for the next 40 days, the members will be praying for three persons. Rev. Van Buren explains. During Holy Week they will visit these five persons or contact them by telephone or letter to let them know they have been lifted up in prayer during Lent. Any person wishing to participate in this Lenten prayer ministry can call Oberlin at 965-3656, or the Galena Church at 965-2151.

## THOUGHT FOR THE WEEK

By Dick & Garce DeVore

## THOUGHT FOR THE WEEK

Have you heard complaints these days about alleged lack of old-fashioned courtesy, respect and manners? Have you noticed a disturbing trend toward incivility on highways, streets, in offices, stores and public places where people congregate?

Certain facts are unmistakably clear. Every human being is a person. Politeness between people honors people as people. Good manners cost nothing but buys a lot of happiness and contentment. Good manners is an excellent tie to bind families and nations together.

In manners as in anything else, mankind should take a close look at the perfect example in the Man from Nazareth. Graciousness and gentleness were constantly evident. He sloughed off the slights and insults. His standard of behavior was quite simple. Mainly, it was just being nice - regardless.

## Tax-Deferred Retirement Savings Is For Everyone!

## Be sure Yours Is Bank Safe.

Now every wage earner-including those covered by a company pension can have his own tax-deferred Individual Retirement Account.

In fact, anyone under age 70 with earned income-even a part-time worker-can take advantage of a tax-deferred Individual Retirement Account.

A tax-deferred Individual Retirement Account can add diversification and supplement a company pension plan and you can continue your contributions regardless how many times you change jobs.

You can contribute up to \$2,000 a year and if your spouse earns \$2,000 or more, the total family contribution can double to \$4,000 annually. If one spouse is not employed, you can open a Spousal Individual Retirement Account and you can contribute \$2,250 annually. Not only do you reduce your current Federal income taxes, you earn tax-deferred interest on your contributions.

Your independent hometown bank offers you the option of a variable or a fixed interest rate for 18 months. Stop in and ask for our current interest rate.

The earlier you make your contributions the greater your tax-deferred earnings will be. This chart shows the growth of an Individual Retirement Account based on a 12% daily compounded annual interest rate with a once a year deposit. Amounts and interest rate are only assumed and are not guaranteed.

## King-Gulick Wed in Florida

Mr. and Mrs. Joseph Gulick

Daphne Shwu-Jyh King of Taipei, Taiwan became the bride of Joseph Leo Gulick of Ocala, Fla., on Dec. 23 at 7:00 p.m. at the Blessed Trinity Catholic Church of Ocala. Rev. Joseph Conners officiated the ceremony.

The bride is the daughter of Mr. and Mrs. Bing Shuang King of Taipei, Taiwan.

The bridegroom is the son of Mr. and Mrs. Robert Gulick of Ocala, Fla. formerly of Sunbury. Given in marriage by her father, the bride wore a formal gown of Crystal organza, featuring a fitted satin bodice, covered with re-embroidered appliques of lace and seed pearls. The fitted long sleeves were of English net with pearl-covered allusion lace appliques. The full skirt was of organza, embroidered with satin star flowers and a wide embroidered band around the hemline of the Cathedral train. Her lace and satin headpiece was embellished with flowers and pearls and was attached to a shoulder length veil of silk illusion. She carried a colonial bouquet of baby's-breath and stephanotis

accented with red roses.

Landy King, sister of the bride, served as maid of honor. She wore a white silk gown with satin embroidery over the high neck bodice and around the hem. A large gold sash accented the waistline. She carried baby's-breath with a red rose.

Mr. (J.G.) Thomas A. McCusker of South Dakota served as best man. Douglas Gulick and Christopher Gulick, brothers of the bridegroom, served as ushers.

A reception was given by the parents of the couple at the Horseman's Lounge in Ocala. The bride is a graduate of Fu-Jen Catholic University, Taipei, Taiwan. She received her Masters of Science degree from Texas Women's University, Denton, Tex. on Dec. 18.

## Elementary Students Take Part in Olympics of Mind

Big Walnut Elementary students have been involved in a program called "Olympics of the Mind."

The program is designed to stimulate creative thinking and problem solving, according to Parents for Academics. Students learn how to "brainstorm" for new ideas and then use their ideas to solve problems.

One team of students last Saturday tackled the problem of "Charlottesville." The students had to design and construct a chariot which would be driven while rescuing various subjects along the way. The final part involved a timed race, organizers report.

The Futurists, coached by Phyllis Taylor and Doris Burkhardt came in first place. Students in this team included Dusty Smith, John Hicks, Matt Pottenburgh, Jamie Fitch, Craig Erick, Joshua Morris, John Kuhn, Kacy and Michael Walko.

Five other teams studied the problem of "Camelot." The problem consisted of doing "brave things" and "good deeds" while communicating with methods other than language.

Parents for Academics explain Guevere remained in the castle giving signals to the four knights and knights. King Arthur pulled Excalibur from the stone. Sir Gawain tried to joust

## Neighbor To Neighbor Around Berkshire

by Maxine Longshore

This week's sketch is about the land at the east corner of St. Rt. 37 and Cheshire Rd. In the past 12 years it has evolved from an 80-acre farm to a commercial and residential district. The story is told by Ted Forman, a local realtor, contractor, and developer.

Ted Forman, a local realtor, contractor, and developer, purchased the remains of 25 acres and platted it into 76 lots. In January, 1978, this development of Foxboro, was annexed to Sunbury. Ted tells me he named the streets after the wild animals which had traveled the land and Fox Trail, Woodchuck, Mink, Cottontail, Chipmunk, and Hacco. Of the 76 lots, 25 now have residences on them, so we can look forward to many more neighbors in the near future. The residents say they are enjoying watching Foxborough grow and like the small town atmosphere of Sunbury and its proximity to the city.

Mr. Tom's is the rallying point of this and surrounding communities where every morning the men gather for breakfast and gossip. They report that they have re-tooled many a WWII battles have cleaned up the Washington mess, and in general have "turned around" the country. Perhaps we can find a presidential nominee from the group! Similarly the women gather for breakfast on Saturday mornings but they claim they don't gossip. From this group of 15 or so, the monthly birthday luncheon has been formed. Last Wednesday, Mar. 7, 18 well-wishers met to honor the March birth days of Mary McDonald, Eva Jane Williams, Louise Grandmiano, and Edith Lake.

Randy and Marsha Jones and three sons moved into Foxboro from Columbus and were its first residents, becoming "old settlers." Their son, Randy, has been enjoying wrestling at Big Walnut.

Cliff and Joyce Cook, and daughter and son from Collinswood, N.J., were the second to move in. Joyce just finished teaching a session in rhythm aerobics at Big Walnut Elementary. This was a 7-week class held twice a week and sponsored by Columbus YMCA. Cliff received a pair of cross country skis for Christmas and is thoroughly enjoying using them across the fields during these snowy days. This family is into fitness!

Wendy Cook, a 9th grader, is on the drill team of 24 members. On Feb. 12, the team ranked 3rd in

competition at Zanesville, which earned them the privilege of entering contests at Worthington on Feb. 19, and the State Tournament at Otterbein on Mar. 4, at which they placed 7th.

Barbara Lee is a 5 year resident of the area and moved here to be near her daughter, Mrs. Joe Luning, of Sunbury. Mrs. Lee is a former teacher in the Worthington and Grandview schools. She greatly enjoys her bi-weekly volunteer work in the reading program at Souder's Elementary School.

Homer and Marye Rader of Foxboro were Sunday dinner guests at the home of their daughter, Richard and Barbara Dehl and family. Jackie and Tony Merritt of Westerville were Sunday dinner guests of her father, Robert Linnabary. In the afternoon they visited Robert's mother, Claire Linnabary, at Lucking Memorial Hospital in Newark.

Russ and I have also been visiting my mother, Mrs. Linnabary, at the hospital again this week. She has pulmonary embolism now which followed the stroke she had in 1979. I attended the funeral of Alga Grove at DeVore's on Thursday, Mar. 8. Ray Rayback and family of Gahanna were Saturday dinner guests in our home.

Remember to call 965-2254 with your news anytime. Watch for next week's sketch! Be happy!

## Tooth Or CONSEQUENCES

Views On Dental Health  
by MICHAEL S. ANTHONY, D.D.S.

### OPTING FOR PARTIAL DENTURE

If you have missing teeth that should be replaced and are concerned about cost, you may opt for the partial denture. This is the most economical way to meet the need to protect your natural teeth as well as your appearance. Missing teeth not only cause the adjacent teeth to drift, making them more vulnerable to decay, but they also create gaps in your mouth that may cause cheeks to sag as well as mouth and cheek wrinkles. This is a gradual process, but the sooner you replace missing teeth the better for your appearance as well as your dental health. When you opt for a partial denture, the fee is usually based on the whole appliance and not the number of teeth on it.

A partial denture is a removable appliance. You can slip it easily in or out of your mouth. It is made with metal clasps that attach to the nearest and strongest natural teeth on either side. It serves a very important need by filling the gaps caused by missing teeth. It can also be used to replace front ones. A public service with the aim of promoting a better dental health environment.

## United Begins Burying Wires With Spring Thaw

United Telephone Company of Ohio is taking steps to bury the wires that were laid on the frozen ground during the winter months, in order to provide telephone service, says District Commercial Manager, Richard Reeder.

If any United customers have telephone wire laying on the ground, please contact our business office at 397-4141, and we will place them in our schedule, he concludes.

## Phone Connections May Cause Problems

Service interruptions have been caused lately in the Pataksala District of United Telephone Company, by people connecting equipment from sources other than United Telephone, according to Tom Garn, Administrator Community Relations.

Problems have arisen when customers on party lines have installed phones purchased from sources other than United Telephone. These phones frequently can disrupt service to all the other parties on the line, and phones that do not have the same ringer equivalence number as United's can eliminate service to all parties on the line, according to a United Telephone Company spokesman.

"The FCC has ruled that several conditions must be met before a customer can connect equipment to the telephone network," said Garn. "One condition is that the customer must be served by a private line. Party line customers, by law, cannot install non-United phones."

Other key conditions involved in installing phones include the equipment being registered by the FCC and the customer notifying the phone company of any registration number and ringer equivalence number of any phone to be installed.

"If a private line customer installs United equipment and it doesn't work correctly, then it affects just him," commented Garn. However, if a party line customer installs a non-United phone and it doesn't operate correctly, then all the people on the party line can be affected."

There is a service charge to dispatch a service man to determine the trouble.

Any customers who have questions regarding installing telephones should call the United Telephone Company office at 397-4141.

# CBL Coaches Select Five Big Walnut Players

by Steve Kesler

Coaches from the 12 member schools of the Central Buckeye League have chosen the representatives for the annual post-season basketball all-star teams.

Five Big Walnut cagers landed berths with Janelle Poderys as a first teamer. Kristie Kintner, Becky Chapan and Bob Gibson are seniors, Chapan is a junior and Williams, a sophomore.

Poderys was picked as the Golden Eagle winner at Monday night's sports banquet and sits in second place on the all-time

scoring list. Kintner was the defensive specialist for the Eagles and was leading scorer with 262 points. Chapan earned the most valuable player award and pulled down a team-leading 209 rebounds.

In the CBL categories, Chapan had the top field goal showing in finishing 86-142 for 60.5 percent. She was also fifth in rebounds with 177 for an 8.9 per game average and was fifth in steals with 62 for a 3.1 average. Kintner ranked ahead of her teammate in steals (4th) as she produced 66 for a 3.3 average.

Gibson won two awards - Golden Eagle and MVP - during the banquet ceremonies and was the team's leading scorer (323 points), rebounder (142) while having the highest field goal (47.7) and free throw (69.9) percentages. Williams was second in assists with 49 and turned in two 21-point efforts against Academy and Jonathan Alder.

According to CBL statistics compiled by Larry Larson of Grandview, Gibson ranked high in three areas. He was fifth in scoring with 304 points and a 15.2 average, sixth in free throws as he went 60-84 for 71 percent, and 13th in field goals with 99-196 and an even 50 percent.

The girls team, under the leadership of 4th-year coach Dawn Duffey, completed the season with the school's third best record (17-6) and were second in the Buckeye Division with an 11-5 mark. For 1st-year coach Ron Walters, the boys

ended their overall campaign at 4-16 and closed out their Buckeye Division slate at 3-13.

Poderys will be presented her first team medal tonight (Thursday) when the CBL holds its banquet at a restaurant in Dublin. Serving as the host is league member Jonathan Alder.

In other related news, the CBL has changed its scholar-athlete award to the Ernie-Godfrey Award, has moved up football starting times to 7:30 p.m., has eliminated the basketball previews; will hold the league wrestling tournament at Marysville in 1985; will have girls volleyball and basketball along with freshman basketball games begin at 5:30 p.m., and will start reserve cage contests at 6:30 p.m. starting next season.

## Former BW Coach Awarded Membership

Myron Burt, a former basketball coach at Big Walnut, was awarded an honorary membership in the Ohio High School Basketball Coaches Association during Monday's Winter Sports Banquet ceremonies in the high school gym.

Coach Burt, as he is called fondly by his friends, receives the special plaque from Eagle varsity cage coach Ron Walters in the adjoining photo. After the trophy presentation, Burt was greeted by a standing ovation by the large audience.

Walters gave the award on behalf of the OHBSBA and its president, Walter Harrop. The plaque reads "In recognition and appreciation of

loyal and valuable service to high school basketball in the state of Ohio. Our best wishes and heartfelt thanks accompany this expression of gratitude."

At BW, Burt compiled 123 wins and during his career finished with 170. He also won sectional championships in 1965, '66, '68 and '69. Included in his 14 years as head coach were nine straight winning seasons put together by Burt and the Eagles.

In accepting the award, Burt said this was his 28th consecutive winter sports banquet. He told, "that has been a long time but I've been interested in how the kids do and that has helped to keep me a little bit young."

## Two Highland Cagers Chosen to District 11

By Steve Kesler

A pair of Highland basketball players added more post-season honors to their achievements as the District 11 Coaches Association announced selections in all three classes this week.

Two juniors from the Fighting Scots made the Class AA listings with Dave Montrose earning first team plaques and Bob Linkous an honorable mention ranking. Montrose stands 6-foot-1 and from his guard spot averaged 14.3 points per game while Linkous, a 6-6 center, finished with 21 points against Elgin in the sectional

tournament.

Both are making their first appearance on the all-star team and helped the Scots to a Mid-Ohio Conference championship with a 12-2 record, their fifth title in the past eight years. Under Coach Dick Heath's first year in the program, Highland (after an 0-4 start) came on to finish with a 14-8 overall slate.

The Highland girls, as well as the Big Walnut boys and girls teams, did not have representatives chosen to the squad. Coaches also voted for top players in Class AAA and A.

Bob Shoemaker, a former coach at Big Walnut when the team qualified to the Regionals in 1972, was picked by his peers as Coach of the Year in AA. Shoemaker's Heath team had a 26-game winning going until they lost to Hartley in the sectional championship.

## Storyteller Spins Tales At Intermediate

Hans Klee, professional story-teller, was the guest speaker at a Big Walnut Intermediate as-senbly on Wednesday, Feb. 22.

This assembly was a motiva-tional point for those students writing books for the Young Authors Conference in April. In addition, the assembly served as a forerunner for Right to Read Week, Mar. 28-29.

Mr. Klee entertained the 8th graders with a different telling of Cinderella and some mythology. The 7th graders heard Snow White and other ancient stories.

After each story, the storyteller explained some of the symbolism involved in each tale. Hans Klee also discussed the many different versions of some of our old favorites. Mr. Klee is a frequent speaker in the Columbus Public Schools and other Delaware County schools.

## Highland Spellers Vie At County Level

Highland schools had ten students entered in the Morrow county Spelling Bee, held at Iberia Elementary School on Mar. 6. The ten students took a written preliminary test to qual-ify for the oral competition, with six of the original ten making it to the oral competition level.

Highland spellers and their oral spelling placements, are as follows: Andy Brant, Amy Clark, Kris Goodge, Amy Tiller, Shannon Rogers (26); Jason Gregg (25); Billy Baker (22); Nicole Hamey (19); Patty Van Dyke (11) and Shelley Dickson (8).

Mr. Kume, Highland's Spelling Bee Co-ordinator, says he is very proud of the students' efforts, and that Highland did well in placing six students in the field of twenty-eight.

## Highlights from Marengo Vicinity

by Mary E. McCurdy

Well, here it is another snowy week, drifting roofs and school closings. But the igloo did run. Let's hope we get some sunshine next week as spring is just a week away. Went by my kitchen window on the east side of the house and looked out. I saw a rabbit eating grass out there at 11 p.m. He ate for over an hour. So there's one nice, big rabbit the hunters didn't get.

Received a phone call from Evelyn Sierra, a good friend of mine, saying she enjoys my news. As I understand she used to live up where Golden Stuffer lives now. Her sister, Gladys Saunders, who lived west of me and Sibi Lewis used to walk up there to visit. One of these days when the weather gets warmer and I can get out more, I may have some history on people who used to live around here.

Monday afternoon I visited Herbert and Betty Beard and Veva Ashley.

Monday, Sibi Lewis and Bill Keen visited Goldie Webb in Cent-

terburg finding her improving slowly. They then went to Delaware to see Viola Barrett, finding her a little better. Then to Westerville to see his granddaughter, Melanie Grandstaff, and Katie, his great-granddaughter.

Wilma Zornes and Sibi Lewis attended the baby shower for Dennis (Gordon) Cope at the home of June (Gordon) Burns in Fulton last Tuesday evening. Janet Engburg and Sibi visited Esther (Curtis) Hawk on Penlan Pike after the shower. Janet and Esther went to school together and attended the Harmony Baptist Church. They hadn't seen each other for a long time, so Janet graduated from Cardington and Esther graduated from Chesterville. When they got married they lost track of each other. Other visitors of Sibi's were Debbie Young, Casey and Brodie, Bill Keen, Lori and John McCarty, Helen Nicholson, Amy and Nicole, and Sarah Weaver.

Congratulations to Billie and

Vickie Zornes on the birth of a son Mar. 10. He has been named Christopher Lee. The grandparents are Lennie and Wilma Zornes, who were in Kenton at the time. The great-grandfather is Bill Keen.

Ethel Mathias, Chris Arbaugh, Betty Baker, and Mary Lou Walters attended a miscellaneous shower for Dora Mathias at the home of Mrs. Charles Brookings in Kiboune on Wednesday evening. There were 19 guests from Galletta, Sunbury, Mt. Gilead, and Marengo. On Mar. 2, the ones she works with, held a personal shower for her. Dora will be married soon.

Want to wish Chris Weaver a speedy recovery and hope she will be home soon. She is in the Mt. Vernon hospital.

Want to comment on "The Thought For The Week" by Dick and Garce DeVore on the subject of anger. How much truth is in the way of friendship, the love for your children, relatives, friends and neighbors.
